ABOUT ME

Graphic and Web designer. Over 12 years experience in development of many large web portals, services and product websites. Working in both small and large teams, local and international. Able to understand and easily work with all team types: designers, marketing, programmers, testers and network administrators ;)

Lover of simple, clean and stylish design. Love web design, beautiful interfaces (UI). Able to create on both desktop and mobile systems, also fond of spreading work outside all screens and surfaces. A passionate designer, creating with vision and know-how, but above all - with heart and soul.

Always want to learn more and gain new experience, being quickly adaptable and brave. I am an internet maniac, a little geeky but certainly professional. Love working with headphones on and a camera at hand.

Let's achieve some awesome things together!
